

# **The Builders Group**

## **Union Construction Workers' Compensation Program (UCWCP) Policy**

### Background:

The Board of Trustees of a labor-management consortium in conjunction with local insurance industry consultants created an alternative program, the Union Construction Workers Compensation program, in 1995 to counter the high costs and litigation rates for workers compensation claims.

The program is mandatory for union employers whose union is a sponsor of the program.

The Builders Group offers a 5% credit. The procedure to add the credits is as follows:

- Receipt of paperwork from the UWCWP advising of the effective date of enrollment.
- Verification on website ([www.uwcwp.com](http://www.uwcwp.com)). Note: if you receive a request to add the credit from a producer either on new business, renewal or mid term, we will not add the credit without first verifying they are enrolled in the program.
- Addition of endorsements TBG12 (UCWCP credit) and TBG3235 (UCWCP Endorsement)
