

**WE MAKE WORKERS' COMP WORK**

## **Drug Testing Credit**

The premium may be reduced up to 5% for an Employer who has certified that they have established a qualified drug testing program.

A qualified drug testing program would consist of an outside administrator who would establish a written policy/program and would provide an ongoing testing process.

### **The Drug Testing Credit is as follows:**

- Pre-Employment and Post Accident – 3%
- Pre-Employment, Post Accident, Random and Reasonable Suspicion -5%

Certification is required each year in which a premium credit is permitted.

The member's agreement may be subject to additional premium if it is determined that the member misrepresented its compliance with a drug testing program.
